

INTERIOR STYLING (ACCESSORIZING) BEFORE AND AFTER PHOTOGRAPHS

*What is Interior Styling?
Interior Styling, Staging and Prop
Styling all refer to the art of
accessorizing your home as if it were
being prepared for a magazine photo
shoot. This usually starts with creating
organization from the clutter.
Instead of books, nick knacks or framed
photos randomly placed in a room,
create "collections". After 20 years of
being an Art Director and Prop
Sylist for several divisions
of Better Homes and Gardens,
I understand how a strategically placed
pillow, throw or photograph will create
a warm, inviting space that you
and your guests will love!*
